## ways to use this resource...

With the 'How Many' and 'Adding' Pages, use counters.

For the 'Smallest to Biggest' page, use a large piece of construction paper.

For graphing, there is a blank graph for other things you can use from the classroom.

"In the Barnyard" has a coloring page and a similar one for following directions. Read the directions to the kids aloud.

The page with scattered farm animals can be used to cut up for sorting or graphing.

The 2 page simple reading book can be printed front to back. Cut in the middle, fold and staple.

## Extension Ideas

visit a local farm or petting zoo.

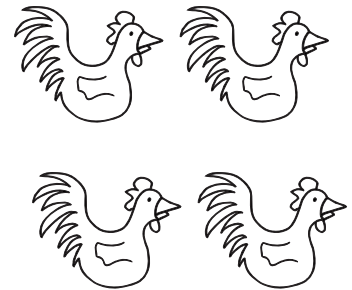

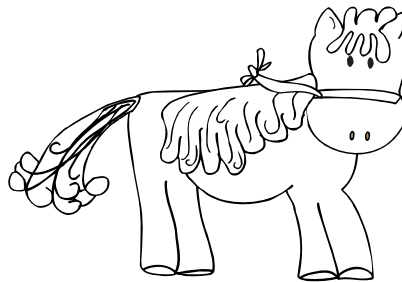

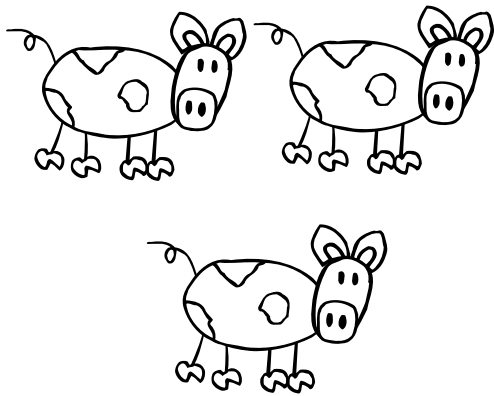

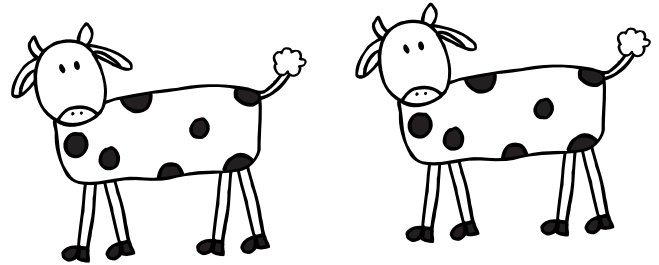

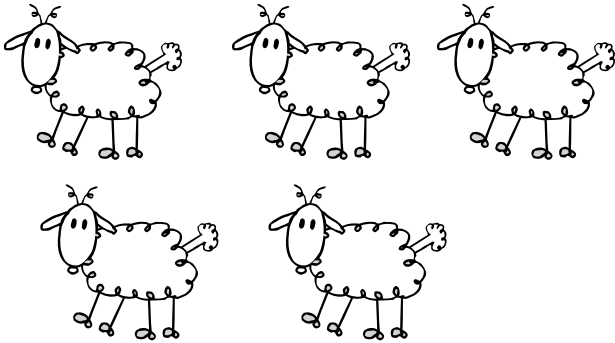

Teach about animal care.

Hatch chicks in your classroom.

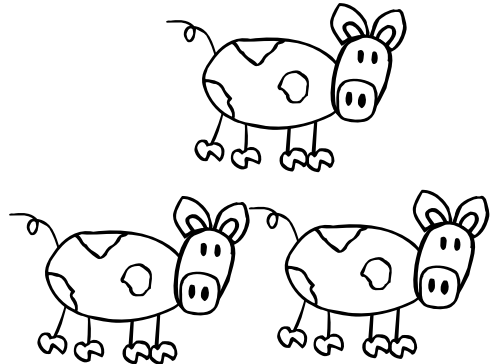

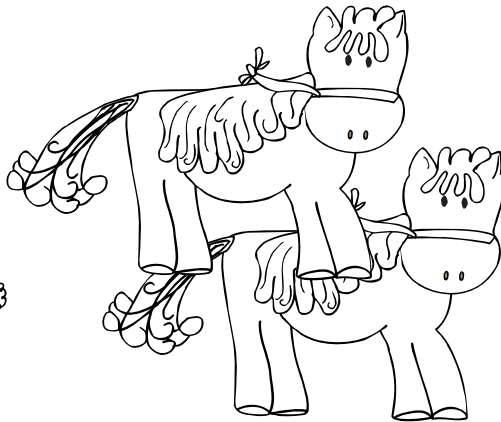

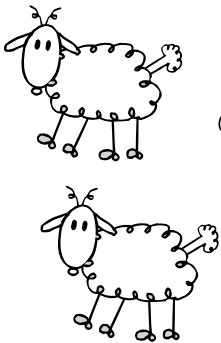

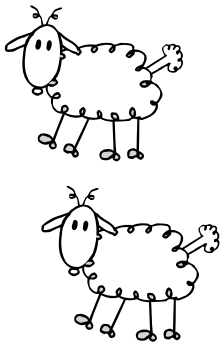

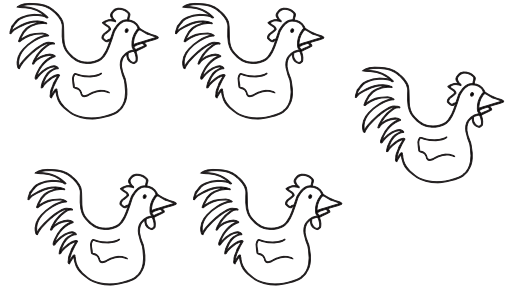

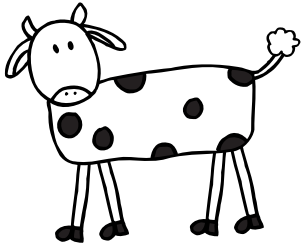

Invite a farmer to visit your class.

Create a book basket of farm books.
