

HEART DOTS

Each player takes a turn connecting one heart to another adjacent heart horizontally or vertically, one move at a time. After a while, the board begins to fill with a series of horizontal and vertical lines, some connected, some not. When a player draws a line that forms a square, that player fills the square with his first initial. The player, who drew the closing line on the square, gets another turn.

objective
The game is played until all the dots become boxes, and the player with the most boxes completed at the end becomes the winner.

To put it
simply,
I think you
are sweet!
